

CHANGARU VENKATA SUBBAIAH

Web Developer | Java Intern

✉ vsubbaiah63974@gmail.com | ☎ 9951403964 | 🌐 LinkedIn | 📄 Leetcode

PROFILE

Motivated and quick-learning professional with a solid foundation in programming, web development, and data analytics. Skilled in developing practical solutions through hands-on projects and certified training. Strong problem-solving abilities, effective communication, and a keen interest in continuous learning and growth. Adaptable to diverse team environments and committed to delivering quality results.

PROFESSIONAL EXPERIENCE

Java Development Intern

ASAR IT TECHNOLOGIES, Bengaluru, Karnataka

January 2024 – March

2024

- Contributed to the development of Java-based applications, focusing on code optimization and ensuring high-level performance.
- Assisted in coding, testing, and debugging Java applications, ensuring functional and technical requirements were met.
- Engineered streamlined data retrieval process for Java application features, decreasing average query response time by 150ms and boosting user satisfaction scores by 18% within the first quarter.
- Participated in the development lifecycle, including documentation and version control using tools like Git.
- Consistently met performance benchmarks and delivered quality work within deadlines, contributing to project success.

SKILLS

Technical Skills

- Java
- Python
- HTML
- CSS
- MySQL

Soft Skills

- Problem solving
- Communication
- Time management
- Teamwork
- Adaptability

EDUCATION

B Tech, CSE, CGPA: 8.3

Sri Venkateswara College of Engineering and Technology

2022-2026

Chittoor, Andhra Pradesh, India

Intermediate, GPA: 9.41

Narayana Jr college

2020-2022

Kadapa, Andhra Pradesh, India

10th Grade, GPA: 9.8

Nalanda High School

2019-2020

Kadapa, Andhra Pradesh, India

PROJECTS

Hospital Booking System

- Developed a full-stack web application for patients to book, reschedule, or cancel doctor appointments.
- Implemented role-based access control for patients and administrators.
- Automated appointment confirmations and integrated schedule management.
- Designed an admin dashboard to manage users, doctors, and time slots.

Bank Management System

- Built a Java-based desktop application for handling basic banking operations.
- Enabled features like account creation, deposit, withdrawal, and fund transfer.
- Used MySQL for secure data storage and transaction history tracking.
- Focused on input validation and accurate transaction logging

CERTIFICATIONS

- Earned [Data Science certificate](#) from Coursera by IBM in August, 2024.
- Earned a [Full Stack web Developer certificate](#) from Udemy, 2024.
- Certificate in [Fundamentals of Data Analytics](#) – L&T (Larsen & Toubro).
- Certificate in [Programming For Data Analytics \(Python\)](#) – L&T (Larsen & Toubro).
- Earned a [Single Page Web Applications with AngularJS](#) certificate by Johns Hopkins University through Coursera in June 2025.
